I concur with this final version of the SACC Asbestos meeting minutes report [attached].

I have made the suggested changes in recommendation cross-references and updated the TOC, List of Figures and List of Recommendations pages numbers just to be sure they are correct.

Just wondered if you might want to send a pdf instead of a Word document in your concurrence email. That way any changes have to be in the form of an email back to you instead of you (again) having to justify 12 track change documents. Just a thought
